CREATIVE TECHNOLOGIST & DEVELOPER

PHOTO

Shvetsiya ta'lim tizimi va Yevropa standartlarida tarbiya topgan 18 yoshli Dasturchi va Kreativ Mutaxassis. Men faqat kod yozish bilan cheklanmayman. Mening yondashuvim — texnik mukammallikni kreativ vizualizatsiya va marketing (SMM) bilan birlashtirishdir. Har bir loyihada minimalizm, toza kod va foydalanuvchi uchun qulay dizayn (UI/UX) birlamchi o'rinda turadi.

"Har bir qator kod, har bir piksel muhim."

Mening shaxsiy raqamli makonim. Bu yerda React va Node.js yordamida yaratilgan tezkor veb-ilovalar, Three.js orqali qilingan 3D animatsiyalar va bizneslar uchun real konversiya keltiruvchi marketing yechimlari jamlangan.

Workflow Philosophy

Kod yozishda "AI-Integrated Workflow" metodologiyasidan foydalanaman. Bu menga standart vazifalarni 3 barobar tezroq bajarish va asosiy vaqtimni loyihaning arxitekturasini, unikal dizayn va foydalanuvchi tajribasini (UX) oshirishga sarflash imkonini beradi. Men uchun kod — bu shunchaki yozuv emas, biznes qurolidir.
